

# One phone for every part of your day.

Because there's little difference between work, play and life, the Sonim XP400 is built to make a big difference.

**sonim** XP400

## Tough and rugged, without sacrificing performance.

Every day requires you to seamlessly move between work, play and well, life. So we built a smartphone that can do the same. The Sonim XP400 can handle everything you ask of it, without asking you to compromise in return. Durable construction, consistent performance and feature-packed make it **as resilient as you are.**

### Backed by Sonim

Since 1999, Sonim has been the leading provider of **rugged, reliable mobile devices.** In those 25 years, we've made it our mission to provide those who work a demanding job or live an active life with tools they can count on to meet their needs. While we're proud of what we've done, we're excited even more for what lies ahead. Learn more at [www.sonimtech.com](http://www.sonimtech.com). Learn more at **sonimtech.com**

### Features

Meets rigorous military ratings (MIL-STD-810H, IP68) to **guard** against drops, dust and water.

Speedy 5G and Wi-Fi connectivity keep you **connected with confidence.**

Large 6.5" **drop-resistant** screen offers **optimum brightness** even outdoors.

Push-to-Talk programmable button makes for **easy, efficient operation.**

**Optimize your mobile ecosystem** productivity with pre-loaded SonimWare, our set of software tools, apps and utilities.

### Core Platform/Functions

|                         |                                                                                                                                                                                                 |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Operating System</b> | Android 14                                                                                                                                                                                      |
| <b>Chipset</b>          | SM4450                                                                                                                                                                                          |
| <b>Bands</b>            | 5G: n1, n3, n5, n7, n8, n20, n26, n28, n38, n40, n41, n71, n75, n77, n78<br>LTE: 1, 3, 5, 7, 8, 20, 26, 28, 32, 38, 40, 41, 42, 68, 71<br>UMTS: I, II, IV, V, VIII<br>GSM: 850/900/1800/1900MHz |
| <b>Wi-Fi</b>            | 802.11 a/b/g/n/ac, 2.4GHz/5GHz                                                                                                                                                                  |
| <b>Memory</b>           | 6GB RAM/128GB ROM<br>Supports up to 2TB MicroSD external memory                                                                                                                                 |

### Connectivity

|                           |                                                                                                                  |
|---------------------------|------------------------------------------------------------------------------------------------------------------|
| <b>Bluetooth</b>          | BT5.1                                                                                                            |
| <b>Messaging</b>          | SMS, MMS (Text, Image, Audio, Video)                                                                             |
| <b>GPS</b>                | GPS L1 & L5/A-GPS, GLONASS, Galileo                                                                              |
| <b>NFC</b>                | Yes                                                                                                              |
| <b>Sensors</b>            | Accelerometer, Ambient Light, Barometer, Gyroscope, Facial Recognition, Fingerprint, Magnetic Compass, Proximity |
| <b>Language Supported</b> | Global languages                                                                                                 |
| <b>VoLTE</b>              | Yes                                                                                                              |

### Battery

|                     |                                |
|---------------------|--------------------------------|
| <b>Capacity</b>     | 5000mAh                        |
| <b>Battery Life</b> | Talk: 30 hrs; Standby: 500 hrs |

### Display

|                   |                                         |
|-------------------|-----------------------------------------|
| <b>Size/Type</b>  | 6.5", Corning® Gorilla® Glass Victus II |
| <b>Resolution</b> | 720x1612                                |
| <b>Colors</b>     | 16.7M                                   |

### Physical Characteristics

|                              |                    |
|------------------------------|--------------------|
| <b>Size</b>                  | 170 x 78 x 10.2 mm |
| <b>Weight</b>                | 230g               |
| <b>Ports</b>                 | USB 3.1 Type-C     |
| <b>SIM Type</b>              | Dual 4FF SIM DSDS  |
| <b>Rugged Certifications</b> | MIL-STD-810H; IP68 |
| <b>Operating Temperature</b> | -20°C ~ +55°C      |

### Audio

|                   |                                           |
|-------------------|-------------------------------------------|
| <b>Microphone</b> | Dual mic solution with noise cancellation |
| <b>Speaker</b>    | Dual speaker                              |
| <b>HAC</b>        | ANSI 2019                                 |

### Multimedia

|                       |                                                                    |
|-----------------------|--------------------------------------------------------------------|
| <b>Audio Formats</b>  | AMR-NB, AMR-WB, AAC, AAC+, AAC+V2, MP3, V-SELP, AMR 12.65, AMR 6.6 |
| <b>Video Formats</b>  | 3GP, MP4, AVI, MOV, MPEG-4, H.263, H.264, H-265                    |
| <b>Graphic</b>        | BMP, GIF, JPEG, PNG, HEIF, WebP                                    |
| <b>Media Player</b>   | Yes                                                                |
| <b>Camera</b>         | Dual rear 50MP standard and 5MP wide; 8MP front                    |
| <b>LED Flashlight</b> | Yes                                                                |
